

alba system/o

Design Roland Meyer-Brühl

The modular concept range alba opens up a world of possibilities. The version alba system/o features optional headrest mounts for padded headrests. The numerous combinable elements provide additional configuration options. They make it possible to create the right living room solution for almost all requirements and include: three different seating comfort levels – soft, springy or firmer – a choice of side elements and seat heights as well as base frame solutions. An extensive collection of fabric or leather covers completes the alba range. All fabric covers are removable.

Top left: Two-seater covered in a light-coloured fabric with folding armrests e and height-adjustable feet. Bottom left: A softly upholstered two-and-a-half-seater leather sofa with a comfortable seat depth of 63cm as well as high, folding armrests e+. Bottom right: A firmly upholstered two-seater that quickly converts into a daybed thanks to the high folding armrests e+.

alba system/o is also suitable for creating extremely variable corner arrangements. Thanks to the seamless bench seat, this arrangement consisting of a grey leather add-on corner and an add-on sofa looks clear

and well-proportioned. Top left: Long chair and add-on sofa covered in cognac-coloured leather. Top right: Optional head- and footrests offer additional comfort.
